300 MEN IN PURSUIT OF BANDIT IN UTAH

SALT LAKE CITY Nov. 24 -Purders of Raiph Lopez, the Mexican sandit and murderer, who last Friday night shot and killed three peace of-Ocers near Sarators Springs, were no nearer capturing their man tonight than when the chase was taken up 2:000 school teachers were in this city quarters of Sheriff Smith tonight were today at the formal opening of the to the effect that all trace of the Mexican had been lost. There are now more than 300 men in the several posses It was the opinion freely, expressed here tonight by police officials that Lopez had succeeded in making his way to the ratiroad and was now probably many miles away.

PRES WILSON TAKES HAND IN HARRIMAN STRIKE

SEATTLE, Wash., Nov. 24.—Samuel Gompers, president of the American Federation of Labor, told the building trades department of the federation today that he had just received assurance from President Wilson that the grievances of the shopmen of the Harriman lines would be given attention by the federal commissioner tendered by the county officials at the named to investigate that and other lat 7:05 o'clock tonight. The shock at court house tonight and another at strikes on that system. Shop in have the fort caused a lamp to topple from

MEXICO SENUS ANOTHER DELEGATION TO JAPAN

SAN FRANCISCO, Nov. 24 .- Once more Mexico will try to thank Japan for her participation in the Mexican centennial in 1910, this time through commission of five headed by Franfour other members of the commission who will join the former ambassador to the United States when they reach lokio, arrived in this city today from Mansanilla on the liner Peru The four men appointed by Huerts

to carry out the diplomatic commission from which General Diaz was recalled so suddenly at Vancouver, B. C. ar Borberto Deminguez, Rodolfo Nervo Manuel Gasque and Luis U. Galvan Each denies emphatically any further purpose in the official visit to Japan than to convey the delayed centennia. thanks. Thèse diplomats would say nothing

of political conditions in their country, further than that Mexico was sick and tired of war.

CALIFORNIA FEELS SLIGHT QUAKE TREMOR

The Sayre Home in Williamstown, to Be Miss Wilson's Home After Her Westing to F. B. Sayre

The fine old country house of the Sayre family in Williamstown, Mass., will be the home of the president's daugh er: Miss Jessie Wilson, after November 25, Mien she will become the wife of Francis B. Sayre, now an assistant disriot attorney in New York county. Mr. Sayre will give up his place with District Attorney Whitman to become secretary to the president of Williams college, which is the most important institution in his home town. Thus Miss Wilson will step from one college town to another, for most of her life was spent in Princeton.

WATER METERS

MAYOR M'KESSON, who has long contended for the installation of water meters, now proposes a limited use of the service. Under his plan householders convicted of wasting water would be required to install

We are aware that advocacy of the meter system is not altogether popular, but this does not after the fact that the system itself is the only sensible and businesslike solution of the problem of water shortage. Comparisons of the per capita consumption of water here and elsewhere show that Colorado Springs uses vastly more water in proportion to its population than Chicago, St. Louis and cities which, like them, derive heir supplies from inexhaustible rivers and akes. Indeed the statement had been made on the authority of local officials that our ser capita consumption is greater than that of any other city in the country.

This is not merely an absurdity; it is reckess waste. Our situation is very different som that of cities which take their water tont big rivers and lakes and whose supply limited only by the mechanical difficules of pumping. To get water we must ""d costly reservoirs and pipe lines, and wen this resource is limited by the precipiition in the mountain watershed. As the ase stands we have a supply which if propfly conserved, would be adequate for 75,-00 people, but in recent years it has someimes been wholly insufficient during the ry season for our population of thirt,

In its larger aspect the real solution of his problem involves securing additional tater rights and building more reservoirs, ut the present necessity is for greater care t the use of water by the householders. Inder the present plan everyhody is at librty to waste as much water as he pleases. Inder the meter system people addicted to his sort of extravagance would have to ay for the privilege, and it is right and roper that they should do so

GROWTH OF THE PARCEL POST

IT IS now predicted that by January 1, hen the Parcel Post system will have been operation a full year, the net earnings III amount to about thirty million dollars, double the sum estimated by the postal thorities before the system was started. hat the segrice should have proved so pular and profitable under existing conions is the best evidence of the need that

In framme the parcel post law Congress liberately sought to avoid inflicting too ach injury on the express companies, d its caution was further increased beise of the experimental nature of the ogram. From the first of January until middle of August the rate limit on rcels was kept at 11 pounds, a figure so r as to make competition with the exiss companies possible only in the carryof small parcels. After the latter date limit was increased to 20 pounds where iill remains.

But even under these circumstances the eess companies are still prosperous eed, although they admit that their nings have been considerably impaired vet contend that they could make ney if the weight limit on parcels were rely removed by the Postoffice Departit— that is, they are engaged in so, ly other lines, such as money orders, purchase and sale of goods by commis-, etc. and their operating expenses are ight, that the transportation of parcels of nece sary to keep them on a dividendng basi. Moreover, every one of the Hig companies has ruled up such an mous surplus from its past earnings that ould reuse from business now and re-

ll of which proves that the parcel post cervas inaugurated none too wonfact that it has carned thirty million es in the first year under conditions n are admittedly restrictive and at which though lower than the expressare nevertheless higher than they he, shows that the facilities of the

a costs outstanding their of stock at

out cutting its income below the point where it will be self-supporting.

Postmaster General Burleson recently, declared that it will be his policy to inclease the weight limits and lower the rates as fast as the organization can be improved enough to handle the increased volume of business which means that it will not be very long until the United States will have what every nation in Europe has had for the last quarter century, an adequate parcel post

RADIUM AND CANCER

WHEFIILR or not radium is a cure for cancer is an unsettled question, though it is several years since the medical profession began experimenting with it. One reason for the indecision is said to be the scarcity of radium, for the quantity in existence is incredibly small and its price astonishingly high. The total amount owned in the United States is not sufficient for the making of a thorough test of its curative properties, and this fact has led Mr. Alfred I. DuPont of Delaware, the millionaire powder manufactures, to finance a movement to produce radium for further experimentation.

This announcement is of especial interest in Colorado because, although the fact is not generally known, at least tour-fifths of all of the radium that has been produced in the world has been taken from Colorado ores. Moreover, certain deposits of pitchblende in this state are looked upon as the future source of radium supply. In the past this ore has been shipped to France and Austria at an absurdly low price and from it is derived the amazing element which is valued at so many thousands of dollars a milligram. According to the report Mr. DuPont has invested heavily in Colorado mines where pitchblende is found, and will pay the entire cost of the laboratory work incidental to a final determination of whether or not the element is a real cure for cancer.

A few days ago one of the speakers at the meeting of the American Society for the Control of Cancer declared that at the present rate no fewer than 75,000 persons will dle of this disease in 1913. The death rate is 8.6 per cent of the total mortality of persons over 45 years old. No further argument is needed to show the vital importance of finding some means of checking the ravages of a disease which seemingly is a steadily increasing menace.

FREIGHT RATES

THE public instinctively resents any suggestion of increased freight rates, although it submits almost without protest to the steady upward trend in the price of all other commodities. Yet transportation is a commodity as truly as beef or wool or cotton or anything else that we use every day, and it is inevitable that the cost of transportation should increase when the cost of everything concerned in it likewise increases, The railways are paying more for their labor than they did a few years ago and more for their rolling stock, steel, timber and other materials. Why, then, should they be accused of greed when they ask permission to increase freight rates?

The question has been pending for a long time and now a hearing is under way before the Interstate Commerce Commission which probably will result in a settlement. Fifty-two eastern jailroads are affected, and their request is for a five per cent increase in the territory east of the Mississippi and north of the Ohio and Potomac rivers. If it is granted the probable effect will be the extension of the same sprivilege to all of the railroads throughout the country, so the present proceedings are of unusual significance.

FOOTBALL HEROFS

BY GEORGE FITCH Author of "At Good Old Sawash"

At this time of the year a careful search through out the country will disclose a great many football

The task would be much more difficult this month than last. Last month the mighty elaculator of the oval pigakin could be dete ted with little or no effect both through the eve and the ent. By following the loudest noise in any college, town the football here-

would eventu-

ally be located !

Zinting was

'He once made 75 yards against noncount stew atoremy? hanging to his legs "

nterest in a wing his shoelace or talking with the college presi

Today the keen used detective dough demand higher wages for the task of funning down tile driver talent. He might discover the football hero at lest but he would not find him on the field swathed in billows of glory. He would discover him in the class room painfully untangling the raveled threads of calculus logic and English litera-

The firsthall, nore in fact as great a man today is he was last month but he does not work at it so I post can be greatly extended with- hard His studies interfere for one thing and for another the student body is hervous and preoccupied over the college prom, the prospects for the basebull team and other foreign aubjects

Later on the football here will graduate and will go furth for a job But he will not mention to the almupt maneger of the packing house that he once made 75 vaids agains; Minnesota with four men hanging to his legs. He will not exactly conceal it but it will not occur to him to take out this fact and stun a hundred captains of industry with it

Still later he will run for village constable in a far-off region, and his battle ery will not be 'Hold em lale" or "Eat 'em Chicago It will be Votes for Women or 'Hello Bill'

The country is full of former football heroes but hes do not stick out over the landscape like Pikes Peak. Some of them are in congress but more of them are pitching has or holding onto some good comfortable, unexciting job with both hands It is great fun being a football hero, and said hero should enjor it while he nuts. For if the pure off his enjoy ment until next year a rude and torketful country will ask for his card and will read it with i, slightly

 Bud Logic AY RUTH CAMERON

'And she fook these stockings out and looked everone of them over before the would give me the ixchange slip" said the lady geroes the was in-"As if I would try to clarge a pall of stockings I had worn'. I think it was an insult

The viewpoint of the lady across the way is as hildish as it is common To resent jules that are made not for you but for the kind of people why require su hrestramti unthinking and

Unreasonable. Of course the lady seross the was is incapilly of such the cheap track as trong to ex-Change in critic site- had worn. But there ite tlents of people who will stoop to such that the rules are made that all articles returned shall be carefully examined before accept-

Another wom in whim 1 know was much insulted because a certain shop would not accept her check for a purchase. The manager explained it was a rule of the company but the lady refused to be pacified. That might all he very well when dealing with crooks she admitted but she was an honest woman and expected to he created as such, and she would never enter that shop aagin

'But couldn't they tell by my face that I was honest?" she demanded, when on hearing the tale I ventured to suggest that such safeguards were necessary because of dishonest people. And it was all In vain that I tried to point out to her that there are plenty of crooks who know her to look and art honest, and that the firm has to make its riles with reference to such people. She persisted in thinking that even if there had to be such tules she should have been made the exception

Nor is it the illogical sex alone that invists upon rerarding a general rule as an individual insult 1 know a man who was most indignant because the gas company required a \$5 deposit before they would turn on the gas in his home. "That's all right for those flat-dwellers who move every year or so ' he fumed, "but for me who has been a householder in this town for 49 years, it's absurd, it s an outrage A chain is only as strong as it weakest link

s the dishonest man who must be considered when rules are made, and that the honest have to obev such rules is no reflection on their character is merely an inevitable consequence of living in a vorid where there are dishonest people. And to regard this enforced obedience is a personal insult is simply to show ones tack of reusonableness and

deciated that it will be his policy to increase the weight limits and lower the rates as fast as the organization can be improved enough to handle the increased volume of business which means that it will not be very long until the United States will have what every nation in Europe has had for the last quarter century, an adequate parcel post

RADIUM AND GANCER

WHETHER or not radium is a cure tor. cancer is an unsettled question, though it. is several years since the medical profession began experimenting with it. One rea: son for the indecision is said to be the scarcity of radium, for the quantity in existence is incredibly small and its price astonishingly high. The total amount owned in the United States is not sufficient for the making of a thorough test of its curative properties, and this fact has led Mr. Alfred I. DuPont of Delaware, the millionaire powder manufacturer, to finance a movement to produce radium for further experimentation.

This announcement is of especial interest. in Colorado because, although the fact is not generally known, at least four-fifths of all of the radium that has been produced in the world has been taken from Colorado ores: Moreover, certain deposits of pitchbleude in this state are looked upon as the future source of radium supply. In the past this ore has been shipped to France and Austria at an absurdly low price and from it is derived the amazing element which is valued at so many thousands of dollars a willigram. According to the report Mr. DuPont has invested heavily in Colorado mines where pitchblende is found, and will pay the entire rost of the laboratory work inchiesses to a fluxi determination of whether or not the element is a real cure for cancer.

A few days ago one of the speakers at the meeting of the Albarica's Society for the Control of Canaar declared that at the present rate no few or Wall 75,000 persons will die of this d'irase in 1913. The death rate is 8.6 per cent of the total mortality of pursons over 45 yev ... Mile No further tigure (is a rated to show the vital importance of figility some means of civiliaing the ranges of a live which seemingly is a stradily like this of maintee.

THROIT RATES

THE public instinctively resents any suggestion of increased freight rates, althorgiit subvits almost without protest to the steady upward trend in the price of all other communities. Yet transportation is a commodity as truly as beef or wool or cotton or anything else that we use every day, and it is inevitable that the cost of transportation should increase when the cost of everything concerned in it likewise increases. The railways are paying more for their labor than they did a few years ago and more for their rolling stock, steel, timber and other materials. Why, then, should they be accused of greed when they ask permission to increase freight rates?

The question has been pending for a long time and now a hearing is under way before the interstate Commerce Cca mission which probably will result in a settlement. Fifty-two eastern railroads are affected, and their request is for a five per cent increase in the territory east of the Mississippi and north of the Ohio and Potomac rivers, if it is granted the probable effect will be the extension of the same privilege to all of the railroads throughout the country, so the present proceedings are of unusual significance.

FOOTHALL HEROES

HUESTA AND CARRANZA. To the Fritor of The Gazette:

Colorado Springs, Nov. 22.

In your editorial on the Mexican dilemma you seem to class General Huerta as the same sort of a man as Carranga.

For ages men have recognized such as Huerta as a traitor and the penalty hanging, not even a military death by shooting. Not only is Huerts a traitor but a murderer, while Carransa is merely

shooting the enemy when he finds them. FANNIE D. FISHER.

LATE COMERS AT THE THEATER.

To the Editor of The Gazette: As a patron of the Opera house here, it is with regret that I have noticed the little consideration. given by the "late comers," and the large proportion. of people who habitually arrive at the theater after the time due for the performance to commence. It is true that when a sticket is sold to a party the owner has the privilege of using it or not, whether in the middle of the performance or at the begin-While technically and legally one probably has this right, should not the moral side be con-

sidered, and the rights of others be reckoned with" During the performance of "Bought and Paid For," recently given at the Opera house, it was the minfortune of the writer to have obtained a seat in the back of the theater. A conservative estimate of the number of people who arrived hite that night would be from 75 to 100. Each one of these would of course make more or less disturbance, to the disgust of those anxious to follow the plot of the

drama from its beginning. In New York the managers of certain theaters are making a commendable effort to protect the rights of those coming to the theater before the curtain is raised, and if some effort were used here in this regard it about meet with the approval of all

appreciative theatergoers. A desire on the part of many theatergrees is to make themselves as conspicuous as possible. They delay purposely until the first not has gotten well started, in many instances, before being shown their. sears. And thus the attention of the audience is distracted, the players are many times made nervous, and these acts of discourtesy often destroy the pleasare of many of the audience who are anxious to become absorbed in the action of the play,

The rule being enforced in New York is not to sent the late comers until the act is over. Thus the pleasure of those already seated is not to be disturned, and the party coming late, though admitted the sit of do- to the themsen her to sood up-to the man orith the act is over. While it may be difficult here to enforce this rule, it will at least do no harm to try, And would it not also be an excellent idou if the management of the Opera house would see that the time for a performance to start is atways given in the advertisement of the production. This has not been done in the past and is possibly the reason some of the patrons are late, though for other conveniences this item should not be omitted. E. C. WATSON.

Colorado Springs, Nov. 24.

4-sociats i Charities Asir That Duplication of Dinners Re Provented

Ulrig from Colorado college and As ociated Charities workers were busy all day yesterday sorting and putting into packages the food and articles recently collected at the schools in the childrens' effering for the pour The Associated Charities now has more thun 80 families on its list for Thanksgiving dinners and by the time the day arrives expects to have places for nore than 100 dinners. We are worried about our chicken

and turkey sumply 7 727 Agent W. E. Wordester, vosterday, "We have to depend on private contributions for he money to purchase the meat for our Thanksgiving dinners, and a present we have only had sufficient money contributed to make up about dinners. The time is limited nov ord to help us out his our work would let us know at once just what they ire going to contribute. The school hildren certainly abowed a fine spirit n their offering.

"Another thing which we have to ratch," he continued, "Is the duplicaion of dinners. Sometimes several organizations have the name of the same amily on their lists. We wive fairly good chack among the organizations but often individuals have it in mind to give certain families a Thankagiving dinner, not knowing hat we also have that family on our ets. To make sure that we do not duplicate dinners and thus shorten the list of those we might reach. We are desirous that all individuals call up up and see if we have the names of the families they are going to visit on our lists. Then we can check off all such families from our list and include others which we would otherwise leave off."

TWO MORE LETTERS FAVOR SPECIAL SESSION ON STRIKE

Balleves Thomas' Plan Is Hope of Quieting Situation.

Noncommittel

With the receipt yesterday by Repesentative Thomas E. Thomas of two more, letters from members of the state legislature favoring the calling of a special session of the legislature to pass a compulsory arbitration act that the coal strike in the southern clorado filds may be settled without further delay, the standing of the senators and representatives was changed as shown in the foregoing table. Answers from the majority of those who have thus far remaned silent are expected momentarily.

Letters received yesterday were from Senator Harvey E. Garman of the firstdistrict, Denver, and Representative. Peter B. Turnbull of Leadville. Being a member of the committee on labor the reply of Senator Carman la especially interesting. He says: "I believe that an extra sesson

should be called immediately upon final failure to effect a settlement of the strike and that the call should be broad enough to take up any and all the situation arising therefrom, including arbitration.

Representative Turnbull, who is in Ctah, says: "I would be only too glad any other blood condition that attacks to return to Colorado for an extra the skin of seeks an outlet through the sension, if the strike could be effect skin is met with the antidotal effect of tively settled." The representative S. S. S. however, expresses doubt as to wheth readily and why they do not return. to both sides and which could be endeclared he would willingly return to try to frame a suitable law.

NO DEFINITE PLANS YET

Demonstrated in Big

By TOM THORPE.

Gridiron Contest.

ng seasons that the gridiron

eversal of form suffered by our so-called major college vere so propounced that the public was kept in a constant uncertainty, which, by the added considerably to the to renewed activity on the

from the fact that the Armyce in Greater New York and thall interest is at fever heat, h between than two service as always been classed as one liktod fights of the year. This

saballa deligation apprara to Middleb have shown game then the Cadels. Their of ther tending at Arreston pr fact. I believe if the midebinm't gest Harvard, Tale. Dartor #sinceton the store would At until the first whistle. ather head the Army con-

h we duly to their credit the to the Le beginne the k uny of the faults exhibited pel The in that child have tracked in their Mr avente in the last few That they are detarmined to right into the Middles ter-

a wonderful rop_4 totre of plays every second of the game

WHILE SOURCES OVER CHARK wonderful genriera who have won their spura y hattlefield... They can be ren to get the maximum power heir respective equade

marield rispains and on the dethese players are on a par sition is men playing the game tohav are fast to wise up a sitund will vary their offense to itgree that their opponents will: sure of just where a play is

Daly may decide to start against them In Harrison Falling McReavy, Blodgett Bates and Miles coach Jun Rellly has a combination that comes nearer perfection than any other com-Musician of the season. Not doly sie these men exceptional line plungers but they excel in open field running that the conclusion business able to and generals clash in New allow the finemen to make the initial charge in almost a standing up powition and thereby gain the advantuaof never burying themselves under a play In this way the defense has an

added amount of strength The combination that the Ainti coaches may decide to start against this squad of backfield men looks to have a great amount of strength as offensive backs, but to lack a little of the defensive ability of their rivals times been very faulty, especially when called upon to intercept forward. passes This was most apparent in the Notre Dame game, but, as I have the public to witness more said, this fault will not be so appararty fall games and not wait, ent in flaturday's contest as in the carlier ones, Hobbs, Benedict, Hodgson, Mithies, and R Hoge are backs of more than average intelligence, and power and strength . They will not be found wanting when put to the crucial test.

Ends Balanced. At the extremit, positions little is

to be given either team. Captain Gilchrist and Ingram for the Middles as Point are high-class end men. They all possess a whirl of speed in getting down under punts, they tackte hard in the open, box tackles as only good ends can, and play exceptional and crafty football at all three, In weighing these men the v les strike more of a balance than in any other posttion on the respective elevens.

The rank battle of the contact should be at the tackle punction. In Wynne and Weyand the future generals are copresented by two sturdy his as who That gives growing of great have has abundance of fugience and that gives growing of most have has abundance of fugience and the figure of 186th E me will start to rinch Vaughan at will face this in the last of the Wynne, is a player who let a forthall and also has a knowledge of football that vary few other same playing the same out boast of. He is a fast, hard charget and never allows his opponent to outguest hite.

At the other tackle. Weyand will be called upon to handle one of the heat d not stipe any lack of fight- wer that the Midshipmen have had in to creen into their playing a great number of years and he will are 119-2 manters, while the to any foul Are but they will resort kick and forward pass have to any foulplaying but they are both a neglected. Spectators should hard fighters and will be at each other

At the guard positions the Admitals outcless their at a opponents. Hower Michols and Mitchell for An- and Browne are Anyers of all-Ameri-and Frichard for the Army can caliber. They hoth measure more than six feet in beight and ale built in proportion Baving three years experience at the position sind facing all kinds of genids, there is I tile that these men do not know about the po-

In Meacham Jones and Houston physical qualifications of their offoat the game. The Arm's trio nevertheless are performers that are sure to enter the contest with the knowledge mainder of the Navy backfield that they must show exceptional form

Player for Player

Army Center Is Fast.

McDown at center for the Army le a player of whom much is axpected game that justifies the conthes in ferling that at this josition their rivals vill not have any decided advantage Perry the man who will be sent into play McEwan, is a performer of the same type as his opponent. In all of the Navy games to dite Perry has displayed a style of game that has called forth nothing but words of praise from the men on the sidelines. He is especially good on defense

In the kuking department both eletens are equipped with fairly good material Hobbs, who will do the kicking for the Army, is a consistent performer, his punts averaging more than 40 yards McEwan at goal kicklng can be relied upon

For Annapolis Nichols, Harrison and Blodgett are all toe artists that can average a fair distance in their kicks Browne at placement and kicking after touchdowns is a kicker who has displayed his worth on occasions too humerous to mention

Although Saturday will wer the last of the gridirons for the season of 1913, I the enthusiasts of the game will be given ample opportunity before then to appease their appetites for the sport

Thanksgiving Day Matches Thankegiving day, the day on which many of us look forward to a big turkes performances, will furnish many interesting and taciting struggles. The Pennsylvania-Coraeli meeting on

The Pennsylvania-Coraeli meeting on Franklin field in an ancy the on which many theory one of fall of the on which university folk as \$50.00 Blowtown. This year's apailled; [V] W. furnish some very nearly [A] four all. Both tenms have note the male in the dailed from the two fall of the parties of the university of the manufacture.

Coach George Brooks's charges will endeavor to realing a little of that prestige that they was at the hunds of oach Kavanaugh's Clean, Mountain

Early in the streon Fean gave great promise but the tack of rebuilding a very pruch demolished another over-Wth material that had to be taught

the rial rudinents of the

Brooks has whipped into shape a machine which with another setson's experience will no doubt re vin for old Penn its position in the football world. Cornell on the other hand has failed to show any real caliber Lucking age and weight the material at the disposal of "Al' Sharpe has failed to combat the experience and strength of many of their rivals. That the proposition up at Ithaca is a very difficult

Sharpe has failed to bring the Maroons the first division of the footwall world That Thursday a game will show . a thes will meet players that lack the great improvement in both aggregations is a certainty but no matter nents and are not nearly so experienced ; how well they may play, they cannot gain any same or higher place in the final rating of teams of this stason

ohe is exhibited in the fact that

In Washington Georgetown and Holy Cross meet for the final championship of the Catholic universities The showing made to date by both elevens is slightly below their games lof former vears

Southern Games Good.

At Richmond, the Universities of Virginia and North Carolina meet in their annual affair Virginia has experienced an exceptional year, in fact this terrs aggregation is perhaps the strongest one that the famous raouthern university has ever sturned out. Carolina who under the able tutelage of Tal Pendenton and Bif- Wilson, former Princeton players, has made a very creditable showing and Thursdava game should show some high-

cinus football Carlisie and Brown zu Providence as vill as Lafavette und Dickinson at should attract considerable

The west is not to be without its Thanksgiving day games. Syracuse trivels to St Louis to meet the local college. Notre Dame will try to put the skids under University of Texas at Austin Washington State will give battle to the University of Washington at Seattle. The School of Mines will clash with Denver university while the University of Oregon will cross swords with the Multnomahs at Portland

Case and Western Reserve will fight for supremacy at Cleveland Kentucky State and University of Tennessee are scheduled for Lexington, Mt Union and Hiram at Alliance, University of Cincinnati and Miami at Cincinnati. University of Pittsburg and Penn State at Pittsburg, and Vanderblit and the University of the South at Nashville, will make up the complete schedule of games for the day

TORK, Nov. 24-Trading all but 7 and today on the stock exof a distler market, most of the time the favorite stocks moved up or down or much as a point. When the five dreary hours of trading had come to an end, it was found that the total business was 57,300 shares.

The best that could be said of to-

day's market was that the undertone was firm. Holders of long stock derived some

discouragement from the market's firmenss in the face of discouraging. on the fortnightly report of railroad traffic which showed a large increase in idle freight cars. News from the steel and copper trade

For Ladies: was pessimistic. It was reported that some sales of copper had been made at New lasts and leathers that you will like for fall

Sisgnation in the stock market was reflected in a fulling off in the demand idl muney. There was an evelor true in the call money market and commermovement to Canada was continued. Which is probably at an end, and the necessary preparations for December

Interest and dividend payments and affect loaning rates temporarily had the outlook is for easy money. Bonds developed an easier tendency

IN PIKE VIEW

Statements of Pike View Citizens Are Always of Interest to Our Peaders

To many of our readers the atreets of Pike View are almost as familiar as those of our own town and we are naturally interested to read of happenings there. The following report from a well-known and respected resident will be helpful to numbers of men and women here in Colorado Springe.

Mrs. M. G. Basham, Pike View, Colo.,

says; "I was bothered by disordered kidneys for years and the past year I was much worse. The kidney secretions caused me no end of annoyance and I became so badly run down that Loudd hardly drag myself around. I was weak and my feet, limbs and ankles were swollen. After taking several remedies without benefit, I heard of Donn's Kidney Pills and used them. They helped me at once and since then, I have been able to walk and get arounwithout any trouble. I han's Kidney Pilla cured me, and I willingly give

hem the praise they deserve." For sale by all dealers. Price 50 ents. Foster-Millium Cn., Buffalo. New York, sole agents for the United
